

The Sailing Challenge

1. The Sailing Challenge

The Sailing Challenge uses offshore sailing as a medium for leadership development. Offshore sailing provides a real relevant yet challenging inspirational environment to discover new leadership and team working capability and reinforce desired leadership behaviour.

The combination of experienced sailors, state of the art yachts, business psychologists, learning and development facilitators, we are able to create an extensive range of challenges to suit any leadership team and their specific goals.

2. Objectives

Teams are set a series of progressively more complex challenges that require strong leadership, close team collaboration, agile planning and execution. Teams will be required to plan passages, navigate, manage the boat and its equipment, understand rope work, agree and understand team roles and to race competitively.

3. The Experience

Participants will experience life on board working at close quarters with one another, develop a common understanding of leadership. Each member will enter a voyage of self discovery, they will learn about themselves they did not know and things about their colleagues that were not apparent. These rich insights are captured and harnessed to improve leadership capability and team working.

4. Linac's Facilitation Team

In addition to skippers who are experienced and qualified Yacht masters and in many cases, certified instructors, we use business psychologists and experienced learning and development facilitators who specialise in experiential events to ensure leadership teams obtain the maximum benefit from the experience and that learning objectives are full met.

5. Flexible Delivery & Venue

The sailing Challenge can be tailored to suit specific requirements. The challenge may be used to provide a one off event or may form part of wider development programme. In all cases activities are clearly linked to organisational competency frameworks and desired behaviours. We can operate independently and are able to charter high performance cruising yachts that are safe, comfortable both in the UK and abroad.
